

MUSIC, MIND, MOVEMENT & TECHNOLOGY WORKSHOP

The Music, Mind, Movement and Technology (MMMT) is a hybrid satellite workshop around the 23rd International Society for Music Information Retrieval Conference (ISMIR 2022). MMMT is an attempt to increase the dialog between the fields of Music Information Retrieval (MIR) and Music Cognition. This 2-day workshop brings together leading international researchers for a series of talks highlighting interdisciplinary research and facilitating interaction and exchange of ideas around various themes. The scope of MMMT extends across the fields of computer science, musicology, cognitive science, social computing, information science, electrical engineering, amongst others.

2 - 3 DEC 2022

HYBRID WORKSHOP

Workshop chair

Vinoo Alluri

International Institute of Information
Technology, Hyderabad
